Classic	Lash Extensions	Classic eyelash extensions, also known as single-lash extensions, are a traditional style that involves applying one synthetic lash to each natural lash. This gives the wearer longer, thicker lashes with more definition and curl, and a mascara effect. Classic lashes come in a variety of colors, lengths, thicknesses, and curls. They are a good choice for those who want a subtle enhancement that fits into their everyday routine	ZAR 572.00
Hybrid	Lash Extensions	Hybrid lash extensions are a combination of classic and volume lash extensions. Classic lash extensions are applied one-on-one to natural lashes, while volume lash extensions attach a fan of lashes to individual lashes. Hybrid lash extensions are created by bonding two to eight lash extensions to one natural eyelash using an advanced fanning technique. This technique creates depth and volume, and gives a natural, wispy look with some drama.	ZAR 660.00
Volume	Lash Extensions	Volume lash extensions are a type of lash extension that involves attaching two or more individual extensions to each natural lash, creating a fan shape. The extensions are then applied with adhesive. This style is also known as Russian volume.	ZAR 704.00
Mega Volume	Lash Extensions	Mega volume lash extensions are a type of eyelash extension that creates a dramatic look by using individual lashes glued together to create a "fan". The lashes are so fine that up to 16 individual lashes can be applied to each natural eyelash. Mega volume lashes use .05 and .03 extensions to create a fan with up to 16 extensions, while traditional volume lashes use .07 extensions to create a fan with up to 5 extensions.	ZAR 869.00
Lash Lift	Lash Perm	A lash lift is a semi-permanent process that changes the shape and color of your natural lashes, making them appear longer, fuller, and thicker. It's similar to a perm, but instead of adding volume, a lash lift separates and reshapes your lashes from base to tip, resulting in an upward curl. The results can last up to eight weeks.	ZAR 330.00
Lash Lift & Tint	Lash Perm	A lash lift is a semi-permanent process that changes the shape and color of your natural lashes, making them appear longer, fuller, and thicker. It's similar to a perm, but instead of adding volume, a lash lift separates and reshapes your lashes from base to tip, resulting in an upward curl. The results can last up to eight weeks.	ZAR 418.00

Classic	1 - 2 week Fill	During a lash refill, new lashes are placed on natural lashes as the old ones are about to fall off. Some recommend going in for a lash refill every two to four weeks to ensure your lash line stays full	ZAR 308.00
Classic	2-3 Week Fill	A 2-3 week classic fill is a maintenance appointment for eyelash extensions that involves placing new lashes on natural lashes as the old ones are about to fall off. The lashes should be 14 days or less, and at least 50% of the extensions should still be intact. If the lashes last longer than 14 days, it's considered a 3 week refill.	ZAR 429.00
Classic	3-4 Week Fill	A classic 3-4 week fill is a type of eyelash extension service that replaces long or overgrown extensions with new extensions, and applies extensions to new and natural lashes that have lost their extensions.	ZAR 484.00
Hybrid	1-2 Week Fill	A 1-2 week fill is a maintenance appointment that involves replacing lashes that are 14 days or less with new lashes. This is also known as a lash refill, infill, or touch-up. Lash extensions eventually fall out due to the natural growth cycle of lashes, which can be around 3-5 lashes per day. A 1-2 week fill can help keep up with the growth of your lashes.	ZAR 484.00
Hybrid	2-3 Week Fill	A 2-3 week fill, also known as a lash refill, infill, or touch-up, is a maintenance appointment that occurs every 2-3 weeks after getting a full set of eyelash extensions. This appointment fills in gaps left by natural shedding, which can appear after 2-3 weeks. For a 2-3 week fill, you should have at least 50% of your eyelash extensions still intact.	ZAR 484.00
Hybrid	3-4 Week Fill	A 3-4 week fill is a lash extension maintenance service that involves adding new extensions to your existing set to replace lashes that have naturally fallen out. This type of fill is for clients who have less than half of their extensions remaining. For a 3-week fill, you should have about 50% of your extensions remaining, and for a 4-week fill, you should have about 40% remaining.	ZAR 539.00

Unibrow	Laser Hair Removal	Unibrow laser hair removal is a procedure that uses laser light beams to damage hair follicles and prevent future hair growth in the unibrow area. The laser light is absorbed by the hair's melanin, which is converted to heat and damages the hair follicles. This damage can inhibit or delay future hair growth.	ZAR 132.00
Upper Lip	Laser Hair Removal	Upper lip laser hair removal is a permanent hair removal technique that uses concentrated light energy pulses to damage hair follicles and prevent hair growth. The laser beam passes through the skin to the hair follicle, where the light energy is converted into thermal energy that destroys the follicle. The procedure can be less painful than other methods, doesn't damage the skin, and is cost and time effective	ZAR 220.00
Cheeks	Laser Hair Removal	Laser hair removal on the cheeks is a treatment that can permanently reduce unwanted facial hair without the harmful effects of shaving. It works by damaging the root of each hair follicle with pulses of light energy, called photothermolysis. The light is absorbed by the hair's pigment, or melanin, and converted to heat, which damages the follicle. The hair vaporizes, and after a full round of treatments, the hair will stop growing back.	ZAR 275.00
Sideburns	Laser Hair Removal	Sideburn laser hair removal is a permanent hair removal treatment that covers the area from the hairline to the jawline or below the ears. The treatment uses a cooled laser head to selectively destroy the hair root. During the treatment, you may feel pinpricks as the hair is destroyed. The treatment can take up to ten minutes, and the duration depends on the size of the area being treated.	ZAR 275.00
Chin	Laser Hair Removal	Laser hair removal is a medical procedure that uses a concentrated beam of light to remove unwanted hair. The beam is absorbed by the hair's pigment, which converts the light energy to heat. The heat damages the hair follicles, which inhibits or delays future hair growth.	ZAR 275.00
Neck (Front & Back)	Laser Hair Removal	Front neck and back neck hair removal is a treatment that can safely, effectively and permanently reduce the unwanted hair, without the harmful effects shaving can have on your skin. laser hair removal treatments work by targeting the dark pigment of hair right at the root and destroying it on contact.	ZAR 357.50
Full Face & Brows	Laser Hair Removal	Laser Hair Removal uses advanced laser light technology, which targets the melanin within the hair follicle. The laser light is then absorbed into the root of the hair, destroying the hair cells and stunting the regrowth of hair.	ZAR 880.00
Forehead	Laser Hair Removal	Laser Hair Removal uses advanced laser light technology, which targets the melanin within the hair follicle. The laser light is then absorbed into the root of the hair, destroying the hair cells and stunting the regrowth of hair.	ZAR 313.50
